I can – I am a Master in European Forestry!

WHY EUROPEAN FORESTRY?

The MSc European Forestry programme provides you with an ideal opportunity to get a high-quality education, to network with professionals from all over the world and to travel across Europe. Our two-year 120 ECTS course-based programme is well organised and you can rely on solid support from the MSc European Forestry secretariat with regard to practical arrangements.

During the two years you will be spending with us, you will study at least at two top-quality European universities, participate in an amazing European Forestry field course that takes you across Europe and have an internship in a forest company or institution which familiarises you with working life. At the end of our programme, you will be awarded a double degree which means that you will be awarded a Master of Science (Agriculture and Forestry) degree by the University of Eastern Finland and a Master of Science degree by your second-year host university.

PROGRAMME FACTS

MSc European Forestry (MSc EF) is a top class taught [Erasmus+: Erasmus Mundus Joint Master Degree Programme \(EMJMD\)](#) in the field of forest sciences. The quality of our programme is acknowledged by the European Commission, which awarded the MSc European Forestry Erasmus Mundus status for the years 2004–2014 and for the years 2016–2019.

In MSc EF, six European top-class forestry universities collaborate intensively to offer joint study modules in addition to their existing curricula. The MSc EF Consortium consists of the following institutions: the University of Eastern Finland (coordinator); AgroParisTech, France; the University of Freiburg, Germany; the University of Lleida, Spain; the University of Natural Resources and Life Sciences Vienna, Austria and Transilvania University of Brasov, Romania. In addition, Associated Partner HEIs in Brazil, Canada and China and Associated Industrial and Associated Scientific Partners contribute to the programme delivery.

Our programme has been running since 2001, and we are proud to say that our graduates have exceptionally impressive careers, many of them attributing their career success to our programme! Our graduates are indeed amongst the most sought after in the field by national and international employers alike. The majority of our graduates are currently employed around the world by organisations such as:

- Forest and nature management agencies and governmental bodies
- Research institutions
- Forest enterprises in paper and pulp industries and saw milling
- Environmental NGOs

”

Definitely, the European Forestry program has changed my life. In addition, the opportunity to live in Europe and especially in Finland has opened my mind and a world of opportunities. I still sometimes think it was a dream these amazing two years, where I could gain a lot of knowledge and make lifetime friends.

Alan Ferreira Batista, Brazil

LEARNING OBJECTIVES

Our programme is a two-year interdisciplinary programme that provides academic education in the field of sustainable resource management with an emphasis on current bioeconomy issues. MSc EF offers a new approach to forestry and nature management markets and it connects the increasing number of forest-related issues with a European dimension at international as well as national levels.

The objective of the MSc EF programme is to educate professionals who have a thorough understanding of a sustainable forest bioeconomy as well as the European business culture. The curriculum is specifically designed to take into consideration the needs of potential employers and therefore our graduates are highly valued by national and international agencies, governmental bodies, NGOs, research institutions and timber, paper and pulp enterprises.

Welcome to study forest sciences

I bring you warm greetings, dear prospective student of our university. I am Victoria Nwachukwu, a student at the University of Eastern Finland (UEF) and your student tutor. My main academic activities are done here at the department of forestry with a focus on wood materials science (WMS). It has been a pleasure through the period of my studies, a decision I will never regret. I assure that you have taken a bold step to usher you into a university where dreams and aspirations meet with expectations. I have been working also as a student tutor over the years and will probably be meeting some of you as you arrive in the city of Joensuu to kick-start your studies. Once again, welcome to Finland. Welcome to Joensuu and most importantly, welcome to UEF where the possibilities are limitless.

Warm greetings and congratulations to the new accepted students of the school of forest sciences here at UEF! My name is Sami and will be tutoring you alongside my colleague Victoria. I'm a graduate student in border studies and anthropology, but I have been a tutor for the faculty of natural sciences and forestry for many years now. Networking with and tutoring forestry and wood materials science students has been a great experience and I can't wait to meet you all and forge new everlasting experiences together!

Greetings from Joensuu Forestry Student Association, welcome to the best part of Finland - Northern Karelia!

Joensuu Forestry Student association (Metsäylioppilaat ry, JMYO) is the student faculty organization of the forest sciences students of our university. Almost all of our students are members, and we welcome new members every fall. We will give you a little presentation in September and arrange a chance to join simultaneously. JMYO offers different kinds of student happenings, parties and get-togethers, but is also in charge of getting the voices of our students heard at a higher organizational level. We host yearly many sauna-evenings, sport matches, the big Räkäposkella skiing event, and some excursions to big forestry related companies or into the amazing nature surrounding Joensuu.

We look forward to meeting you!

Joensuu Forestry Student Association,
Board member and international coordinator Reetta Kangaslampi

Schedule of the first weeks

PRELIMINARY PROGRAMME, WELCOMING AND TRENDS IN EUROPEAN FORESTRY

STUDY MODULES IN THE MASTER'S DEGREE PROGRAMME IN MSC EUROPEAN FORESTRY

First year: autumn semester

All the first semester studies will take place in Joensuu, Finland. Studies begin in early August with welcoming and orientation, during which you bond with your new class mates and have all the essential practicalities organised, such as registering to the University of Eastern Finland and opening a bank account. During the autumn semester you will attend the courses included in Module 1 as well as elective courses.

First year: spring semester

The courses in Module 1 and your elective courses continue in Joensuu until 30 April. After Joensuu, you will attend the European Forestry Field Course which is included in Module 2. This course begins

in early May and takes you on a journey across Europe (Austria, France, Germany, Romania and Spain). All the travels between countries and accommodation, as well as many of the meals, are provided to the students during the course. After the European Forestry Field Course, you will travel to your country of choice for your Applied Period in Forest Institutions which is also included in Module 2. During the first semester, the MSc European Forestry Secretariat will help you find a suitable internship placement in Europe, Canada, China or Brazil. The Applied Period lasts a minimum of two months, during which you will have a local supervisor that will guide you through the internship and give support both in practical and academic matters.

Second year

The second-year studies (Module 3) are carried out in one of the Consortium Universities in Austria, France, Germany, Romania or Spain, which is chosen already during the previous winter (in January-February 2020).

Welcome to Eastern Finland, the University of Eastern Finland and our *Student Union!*

At first, everything can feel new and confusing, but luckily you have joined a student community where you will surely find all the support you need. Students are a wonderful bunch and we at the Student Union of the University of Eastern Finland will provide you recreational activities, sports services and opportunities to make a difference. We also look out for your interests, so that you can focus on your studies. Your Student Association is the link to other students of your field, while the Student Union is the gateway to all the joys and benefits of student life.

The Student Union, or ISYY for short, may already be familiar to you. Once you have registered to the University, you can pay our membership fee, which also includes the Finnish Student Health Service (FSHS) fee. We are a service and lobbying organisation for students, and that means You. From students to students, with love.

SERVICES AVAILABLE TO OUR MEMBERS INCLUDE:

- Interest advocacy
- Recreational activities and events
- SYKETTÄ Sports Services
- Rental equipment and venue hire
- Clubs
- International Services
- Communications services, e.g. newsletters
- Student card and the term stickers
- Customer service office
- Anti-Harassment Contact Persons
- Opportunities to make a difference in the Student Union and the University
- Support and services for Student Associations (e.g. grants and training)

Visit our website to learn more about the Student Union, our operations, services, and all the fun and useful things ISYY membership offers you. Our expert staff is also ready to help you anytime! If you really get excited about our work, you can stand in the ISYY Representative Council elections in the fall of 2019, or vote for the candidate that you think is best suited to run the Student Union's affairs.

We wish you the best in your studies this semester and a happy student life!

ESN for international students

WHO ARE WE?

ESN Joensuu and ESN Kisa are part of ISYY dedicated to the international students. We are part of Erasmus Students Network (ESN) with more than 527 local sections in 39 countries. The most important task of the ESN sections is to introduce Finnish culture and lifestyle to international students and give Finnish students an opportunity to gain international experiences by arranging events and activities. We are active in promoting intercultural understanding and social inclusion.

HOW TO BECOME A MEMBER?

Every member of ISYY is an ESN member. You can participate in our events (most of them free of charge) and to our trips, if you are interested in gaining international experiences. Become a board or active member?

Becoming a board or active member gives you the opportunity to participate in the organization of events and decision making. The tasks of board members are the planning and management of events and trips, communication, finding partners and being part of the decision making in the Erasmus student network (ESN). Active members can participate in organizing events and trips. If you wish to participate, please join our meetings. Contact us for meetings schedule and location.

EVENTS WE ORGANISE

Kuopio: We organise get to know each other nights, movie nights, International food festivals, SitSits, Wine and cheese nights, Board game nights, Barbeques and picnics, Futsal tournaments, Ice hockey watching, Smoke Sauna and the list is open to your suggestions! We have at least one event per week so check out our facebook!

Joensuu: Join sledging, travel to Lapland and hire skis in the Winter. During the warmer months, you can come and participate in events such as the famous Vappu celebrations and Colourfest! ESN members also have the right to borrow skis, skates, frisbees free of charge at the Student Union. We also organise trips to Koli, Saariselkä, Lapland; Lofoten, Norway and St. Petersburg, Stockholm, and other international events!

UEF// DIGITAL TOOLS FOR STUDENTS

The University of Eastern Finland uses a wide range of digital tools that help you with your studies, work and communication. Using these tools is the best way to stay updated on matters pertaining to your studies and the university.

UEF// KAMU

The Student Handbook **KAMU** is an ever-evolving information bank, where you can find instructions that concern all students, as well as links to various services.

A **STUDY COMMUNITY** is a community created for and featuring information aimed at students of a specific department, unit, major subject or degree programme. General studies-related information is also shared in the study communities. The study communities are part of the Office 365 environment, and you can log in with your UEF credentials. You can find links to the study communities in Kamu.

YAMMER is an internal communication channel for students and staff. Everyone can join in the discussion, follow different groups and create new ones. The UEF Students group is intended for information that concerns all students, and the Yammer group of your study community is good source of the latest information in your field. It's a smart move to join and follow both of these groups. You can find a link to Yammer on the university's home page.

AN EMAIL ACCOUNT is automatically created for you in the form username@student.uef.fi. Log in to your email and other O365 services by entering your username in the form username@uef.fi. You can find a link to student email on the university's home page.
